

Gas + Diesel + Oil  
**SPILL RESPONSE**  
**FM 186-2**®  
 TRIPLE ACTION CLEANUP TECHNOLOGY  
 STRIPS | SUPPRESSES | ENHANCES

**SPILL SOLUTIONS** Made Simple

FM186-2® is a fast, effective way to handle gas and diesel spills. It breaks fuel down and holds it in place so it can be cleaned up quickly and easily. It also reduces harmful vapors, helping protect employees on site. With over 25 years of use, FM186-2® helps turn spill cleanup into non-hazardous waste, making disposal simpler and safer. It works for both large spills and everyday overfills, helping businesses stay compliant while reducing risk. It's a safer, faster, and more environmentally responsible way to manage fuel spills — helping protect your people, your site, and your bottom line.

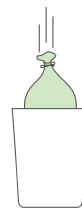

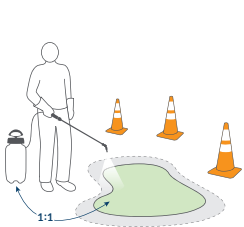

**INNOVATION + SAFETY + SUSTAINABILITY**

- SEPARATES AND CAPTURES FUEL
- SUPPRESSES HAZARDOUS VAPORS
- INCREASE EMPLOYEE PROTECTION
- REDUCES FIRE RISK
- ENHANCES NATURAL BIODEGRADATION
- WORKS IN CONJUNCTION WITH FORECOURT RENEW
